Shelf life is guaranteed for two years from the date of production if the product is stored in the unopened original container between 15°C - 30°C, protected from light. Containers that have been opened should be tested at least yearly to ensure potency. We believe the above information to be accurate based on the information available, it is the responsibility of the customer and user of the material to perform its own investigation and due diligence prior to use to verify that the product meets their quality requirements and is appropriate for the use to which the product is to be put. The information provided above shall be considered effective only for the lot with which the information is being provided

Although we believe the above information to be true and accurate and that the material meets all quality standards, this does not release the user of the material from due diligence in testing the material prior to use to make sure it meets their quality requirements.
